As a young girl playing hockey, I never envisioned winning an Olympic gold medal, being the commissioner of a professional women's hockey league or being inducted to the Hockey Hall of Fame. I simply played because I loved the game. My passion for the sport is still what drives me today.

I realize now, how important all the experiences I had in hockey were. Through the game, I have learned how to be a good teammate and how important communication is. I have learned what it means to be committed to a team and to be accountable to my teammates. I have learned the importance of setting goals and being responsible for my own confidence. All of these skills I learned through the game of hockey. Each experience in hockey has molded my character and helped to shape me into the person I am today. Someone who works hard, loves collective success and someone who is not afraid to push the limits. The game has given me this.

parent, friend and co-worker as a result of my experiences in hockey. If I have one piece of advice... don't take this time for granted. There is no better place to be than on the ice.

Best of luck for the upcoming season! I hope to see you around the rink soon.

Best Wishes,

Jayna Hefford | Commissioner
Canadian Women's Hockey League

I hope you will find the same satisfaction through hockey. The character traits learned through the game are now part of a key skill set in other areas of my life. I'm a better
